## ◆ Dangerous Goods Publications

DGM provides a wide variety of publications solutions worldwide such as Dangerous Goods Regulations, UN books, CD's, dangerous goods posters, hazardous materials publications, Manuals and others.

DGM is regionally recognised as an [IATA Publications Sales Agent](#). DGM Offices act as country distributors around the world to assist our customers locally.

## ◆ Safety & Security

DGM supplies equipment for handling dangerous goods and hazardous materials to protect your staff in case of incidents and accidents or when certain activities –repouring liquids or decanting powders, granulates or other solids- need to be performed.

Spill kits or Personal Protective Equipment (PPE) are good examples but also handling equipment for barrels, boxes and jerricans can be delivered. DGM advises and supplies tools, tips and techniques to increase the [safety and security](#) level within the workplace.

## ◆ Dangerous Goods Software

The current regulations on the transport of dangerous goods by the different modes of transport are a huge amount of information and requirements one needs to comply with nowadays.

To make this all easier, DGM has set up its own IT dangerous goods tool. [DGOffice](#) is the comprehensive online software suite that contains everything to manage all of your dangerous goods related activities.

## ◆ Explosafe

DGM already have an amazing solution to transport explosives and offer fully tested Explosafe containers to the industry.

To get a better insight of the Explosafe, please download our [Explosafe brochure](#)
